

## Range Overview

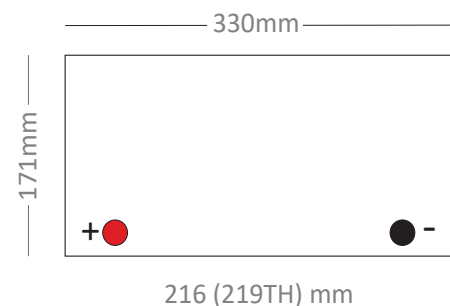

Deltec AGM batteries are designed to deliver optimal performance in standard cyclic and deep cycle applications. Deltec AGM batteries are completely sealed, highly resistant to vibration and built to be extremely durable, utilising high-density active material and a heavier plate design.

## Key Features / Benefits

- Designed to excel in cyclic applications
- Heavier plates for consistent power delivery
- High-density active material for increase durability
- Vibration resistant
- Meets eco standards with a fully sealed design
- Valve Regulated
- Flame Arrestors
- Maintenance Free Design

## Technical Specifications

Voltage:	12 volts
Ah:	120 Ah @c20
Weight:	32.0 Kg
Dimensions:	330 x 171 x 216 (219)mm
Container:	ABS
Terminal Type:	M8 Insert
Terminal Layout:	LHP (Left Hand Positive)
Certificates:	ISO-9001 ISO-14001 OHSAS-18001

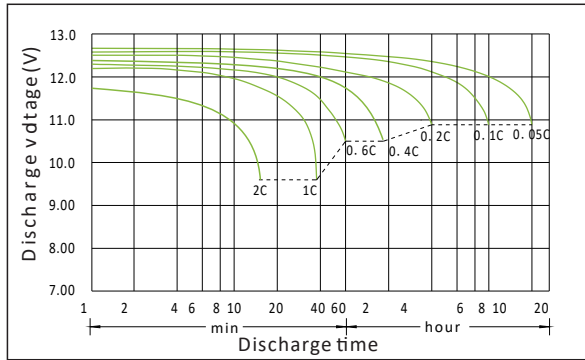

Terminal Style  
M8 Insert

### Specifications Overview

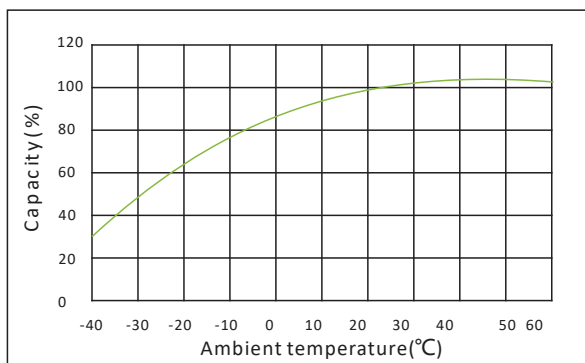

Discharge characteristic

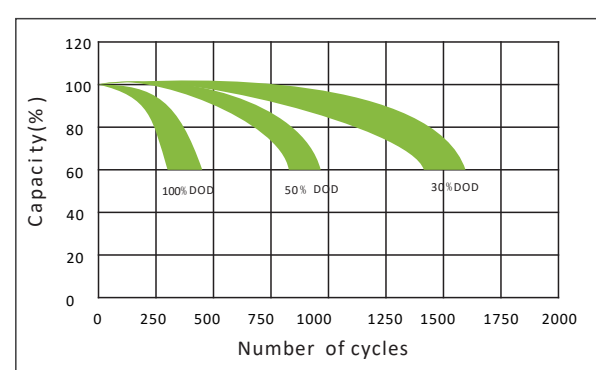

Charging characteristic

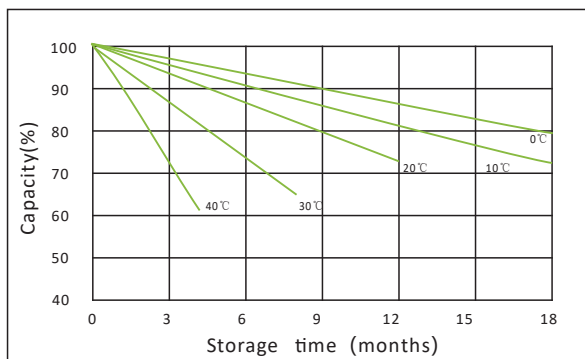

The effect of temperature on capacity

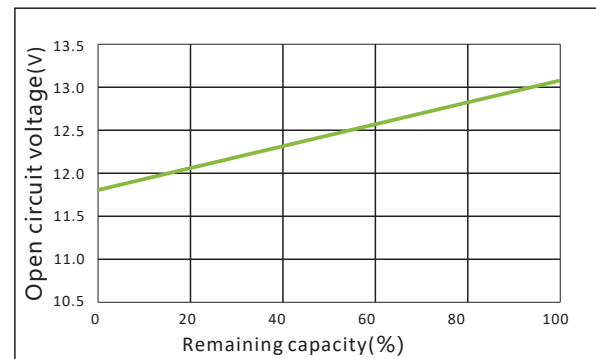

The effect of discharge depth on cycle life

Curves of self-discharge

Curves of open circuit voltage vs. capacity
