

Product Range Changes

MultiPlus, MultiGrid & MultiPlus-II

www.victronenergy.com

Models available until sold out:

- MultiGrid 48/3000/35-50 (last sale expected 2019 Q1).

Date: 01-08-2018

Rev.: 01

See E-Order for availability, note that the actual last sale date may vary widely from above mentioned dates.

Models available with comment:

- MultiPlus 48/3000/35-50 (advice to switch over to MultiPlus-II 48/3000/35-32)
- MultiGrid 24/3000/70-50 (no 'end of lifetime' yet)

All MultiPlus xx/3000 are available, see E-Order for availability in the future.

New models:

- MultiPlus-II 48/3000/35-32 (was formally available as MultiGrid-II).

Available from stock, see e-order for availability.

Table highlighting the differences

See [the full datasheet](#) for details. It contains both the old and the new models.

Differences	End of life model	New model
	MultiGrid 48/3000/35-50	MultiPlus-II 48/3000/35-32
Transfer switch	50 A	32 A
Inverter		
Peak Power	6000 W	5500 W
Zero load power	25 W	11 W
Zero load power in AES	20 W	7 W
Zero load power in Search	12 W	2 W
Charger		
Battery temperature and voltage sensor	yes	VE.Bus smart Dongle * (optional)
General		
Auxiliary output	Yes (16 A) relay with 2 minutes on delay	Yes (32 A) directly connected to the AC input
Enclosure		
Material & colour	Aluminium, blue RAL 5012	Steel, blue RAL 5012
Battery connection	Four M8 bolts	Two M6 bolts
Dimensions (hxwx) mm	362 x 258 x 218	499 x 268 x 141

* Expected to be available in Q3 2018

MultiPlus & MultiGrid

New: MultiPlus-II
