RESIDENTIAL PRICING KIT

SPRINGERS

S O L A R

Dear Customer,

Springers Solar would like to take this time to welcome you into our large network of Queensland solar homeowners.

We have over 24 years of experience in designing and installing PV solar systems. We take pride in only providing our customers the highest quality components that guarantee optimal performance and the best outcomes for you. Springers Solar is the only Brisbane based founding signatory of the Clean Energy Council code of conduct, offering a 10-year workmanship warranty and using only Clean Energy Council approved components designed and tested for Australian conditions.

We do not use subcontractors and every interaction in regards to your system will be handled by a Springers employee. We have on staff licenced electricians, engineers, construction managers and customer service operators. Once you have received an official quote based on your property and requirements, there are no hidden fees, there are no extras, there are no surprises. With Springers Solar you have the peace of mind that everything is handled by a family business with a corporate profile.

Warmest Regards,

Joe, Mick & Eddie Springer

GRID CONNECTED PV PRICE LIST SIGENERGY

From
\$8,990
 AC-Coupled

*Existing solar system required.
 Don't have solar yet? We can provide a complete solar hybrid quote.

Combining solar, storage, and EV charging, Sigenergy offers an all-in-one Home Energy Solution that helps you lower your utility bill and reliance on the grid.

Simple to install, easy to use, smart, and safe, Sigenergy is versatile and scalable to meet every need.

5-in-One

Integrating solar, battery, and EV in one system.

Whole-Home Backup Protection

Seamlessly transition to backup power during outages.

Scalable

Scale on demand. Up to 6 units per stack.

AI-Optimised

Intelligent optimisations on mode, capacity, and usage.

TESLA POWERWALL 3

The ultimate addition to any home or business, the Tesla Powerwall 3 is a powerful and compact home battery. With an integrated solar inverter that enables you to capture more solar energy for storage, Powerwall 3 improves your electricity bill savings and maximises your solar consumption.

Built-In Solar Inverter

Converts solar energy to stored electricity.

Whole-Home Backup Protection

Reliable backup when the grid loses power.

Time-Based Controls

Customise settings to suit your needs.

Scalable

Stack up to 4 Powerwall 3 units.
